- Item Cost automatic print \$0.00

Your Job is....

- Write the php code for popcorn.php file to process the display output in page 3 & 5.
- Place popcorn.php file into **your own web hosting**.

<http://gmm-student.fsksm.utm.my/~yourloginame>

- **Hints:**

In Popcorn.html file, form action should be post to URL of your web hosting. E.g:

`action="http://www.gmm.fsksm.utm.my/~anita/sample/popcorn.php"`

- Get the form data values that enter by the users and allocate into these variables:

← → <http://localhost/sampel/popcorn.html> Popcorn Sales Form - for P...

Welcome to Millenium Gymnastic Booster Club Popcorn Sales
